## **Portion-Controlled Touch Tap System**

***Now, Maximize and Control Profit with Portion and Inventory Control for Draft Beer and Wine***

Your beverage operation can be more productive and more profitable with the Sentry BevCon Portion-Controlled Touch Tap System.

The PCTT system has an accurate, Three pour size memory to eliminate waste and the need for manual operation – one touch does it! And the PCTT can interface with your POS system.

### ***Multiple Taps From Single Control Unit***

- Pneumatically Operated for simple, reliable operation
- Three Pour Sizes
- Add-A-Head
- Counts every pour and every size
- Compact Size – can be installed on Multi-Tap Towers
- Can retrofit existing towers in the field
